Visualization for Data Science

DS-4630 / CS-5630 / CS-6630

Group Activity: Name that Channel!

Instruction

- Create a shared Google doc
 - Add name and set permissions
- With your group, for each of the following 2 visualizations:
 1. Types of marks used (0D, 1D, 2D)
 2. Types of data attribute (categorical, ordinal, or quantitative)
 3. The visual encoding channels used (position, color, shape, texture, etc.)
- Create a brief write-up where you capture your discussion and decisions.
- Submit your document using the Google Form on the course website
